

The taxback.com self-assessed tax service offers you a complete and bespoke solution for a flat fee. Our packages are priced according to the complexity of your affairs and start at just £89\* meaning you have transparency of cost from the start.

The UK Tax Return is comprised of a Main Return and 9 Supplementary Pages (named SA 101 – SA109) each of which focuses on a specific type of income. Depending on your sources of income, you will need to complete the Main Return and the relevant Supplementary Pages.

The work involved in completing your Return will depend on the complexity of your affairs and the supplementary pages that need to be completed. Some Supplementary Pages require significantly more work than others. In order to cater for all levels of complexity in a transparent manner, we have devised the fee structure below with fees starting at **£89**.

## OUR SERVICES

All our Service Types include:

- Access to your personal account on our **TaxTracker**®;
- Your own account manager; and,
- Access to all our updates on changes in the UK tax law.
